

Company announcement no. 9 / 2018
Trifork, November 30th, 2018

Trifork and Netic is to deliver the Danish National Telemedicine Infrastructure together with Systematic

Trifork, Netic and Systematic has won the public tender to build a nationwide Telemedicine Infrastructure for all regions and municipals in Denmark.

The National Telemedicine Infrastructure will at first be implemented to give citizens with severe KOL more comfort and trust in the treatment and at the same time give them more life quality, larger flexibility and fewer hospitalizations days. After this, the infrastructure will be developed into support additional chronic disease areas.
