Trifork A/S
Company Announcement

Trifork purchases share in Orchestra

Message No. 08/2013

Aarhus, 2013-05-31 10:00 CEST (GLOBE NEWSWIRE) --

Trifork has acquired a 2% ownership of the Cloud-hosting company Orchestra. Orchestra is a newly formed company with a business plan of supplying companies with complex cloud-services based on hosting of several Cloud-based backend systems combined by software, developed by Orchestra. The customers will have a very simple interface to the use of the services – and will be able to build the use of these into all their applications. The ownership is obtained by a cash deposit of USDm 0.2.

“With this investment Trifork is very close to the development of cloud-services based on several of the platforms where Trifork has focus and severe expertise. At the same we feel that the founders has shown us a great business case that we are sure that they can realize with the energy that they are showing.”, says Jørn Larsen, CEO, Trifork.

“We are very pleased to have Trifork on board as a partner in our new setup”, says Antony Falco, CEO, Orchestra and continues: *“The two companies, Orchestra and Trifork, will collaborate across a number of fronts: building apps for customers, of course, but also in training and market outreach”.*

About Trifork

Trifork was founded in 1996 and is listed on NASDAQ OMX in Copenhagen. It is an innovative software development company focusing on Mobile, Agile and Cloud. It develops and delivers business critical IT systems for several sectors including finance, healthcare, government, manufacturing and telecom. Trifork employs 235 people in 11 offices in Aarhus, Copenhagen, Esbjerg, London, Zürich, Amsterdam, Krakow, Stockholm and San Francisco. At the end of 2012 Trifork had a market value at DKKm 243 / EUR 33M, with a turnover of DKKm 223 / EURm 30.

About Orchestra

Orchestra was founded by Mr. Falco, who has a great experience in “the world of Clouds”. Orchestra provides an API service that eliminates the need to deploy databases when building new applications or adding new features to existing applications. A cloud-agnostic service, it unifies all the queries needed to build interactive applications through a single API, allowing developers to rapidly add location, search, activity streams, recommendation features and more.

Kind regards,

Board of directors, Trifork A/S
